Letter of Recommendation for Fatima Homor

This letter of recommendation is submitted at the request of Fatima Homor a student in my International Business class, as well as, my advisee for the Dissertation while she was pursuing the degree of Master of Science in Management from University of Liverpool.

Fatima was the best student in the Management class not only in her ability to examine multiple view points and sources in evaluating and examining the challenges and the opportunities in the oil industry but also in engaging her peers to in depth discussion on pursuit of solution, thus contributing to the learning environment of the class.

Her dissertation on the Role of Corporate Social Responsibility (CRS) for Multinational Enterprises was judged as an excellent addition to the literature not only by myself, but also the other assessors/graders

Based on my interaction with Fatima and taking into consideration her work ethic, her capacity to analyze difficult situations and to synthesize knowledge I believe she has the determination and the drive to succeed in your Ph.D. program.

I recommend her candidature for admission to the Ph.D. program highly and without any reservation

Sincerely

Demetri Tsanacas , Ph. D.

Honorary Lecturer, University of Liverpool

Ferrum College- Professor of Business and Economics
